The new Ford Sierra is a dynamically engineered driver's car—taut, beautifully balanced and instantly responsive.

Everything is designed to make you feel at one with the car.

It has brand new all independent suspension, and evolutionary advanced engines offering a choice of 1.3 OHC and 1.6 OHC or a diesel 2.3. A five-speed gear box is standard with the 1.6 OHC.

It uses less fuel than the Cortina, has more space and a bigger boot. It's a very advanced car.

**The new Ford Sierra.
Beautifully balanced,
instantly responsive.**

See this dynamic new car in our showrooms.
